SUMMARY

AI full stack developer and AI tools expert with 2.5+ years of experience in building full stack applications, automation tools, and productivity platforms. Skilled in React, Angular, Node.js, Python, and SQL. Strong focus on rapid prototyping, scalable architecture design, and delivering user focused products.

SKILLS

Languages: JavaScript, Python, SQL
Technologies and Tools: React, Angular, Node.js, Express, REST APIs, MySQL, HTML, CSS, Git, ChatGPT, Prompt Engineering, GEN AI, Generative AI Tools, AI Tools Expert, Automation Workflows, VS Code, Debugging

EXPERIENCE

Founder and Full Stack Developer   **2025 – Present**
Redsorm
– Designed and developed a full stack QR based restaurant management system, including QR ordering, digital menu, billing, kitchen order management, and admin dashboard.
– Built complete product architecture, backend APIs, database schema, and responsive frontend interface.
– Deployed application to production and currently improving market oriented features and client onboarding.
– Implemented real time status updates, order tracking, analytics reporting, and role based access control.
– Responsible for product roadmap, feature prioritization, and continuous enhancement.

Software Developer   **2023 – Present**
Snovasys Software Solutions
– Worked on Time Champ product focusing on User Management and Office TV Dashboard modules.
– Resolved critical production issues by connecting to client systems and performing live debugging.
– Automated repetitive workflows, reducing manual effort and improving turnaround time.
– Contributed across SDLC phases including analysis, development, testing, deployment, and maintenance.
– Collaborated with product, QA, and support teams to deliver enhancements and bug fixes.

PROJECTS

Analytics Dashboard — JavaScript, Data Visualization   **Completed**
– Built interactive dashboards to visualize KPIs, metrics, and operational insights.
– Used internally for decision support, reporting automation, and performance tracking.

Automatic Reminder Tool — Python, Automation, Scheduling   **Completed**
– Developed automated reminder system to trigger task alerts and notifications.
– Improved task tracking and follow ups by reducing manual monitoring effort.

GuideAspire - Skill Development Platform — Angular, Node.js, MySQL, REST APIs   **Ongoing**
– Building a non academic learning platform focused on job ready skills, logical thinking, entrepreneurship, and real world problem solving.
– Helps students from school level explore business ideas, learn career oriented skills, and receive structured career guidance.

ATS (Applicant Tracking System) — React, Node.js, Express, MongoDB   **Ongoing**
– A simple and best ATS tool designed for the recruitment process to make hiring easy, efficient, and streamlined.

Titan CRM — React, Node.js, Express, MySQL   **Ongoing**
– Designing an integrated CRM and ticketing platform combining customer relationship management and support ticket workflows in one system.
– Aims to simplify operations, improve customer support visibility, and automate workflows.

AWARDS AND CERTIFICATIONS

- Excellent Performer of the Year 2025
- Quarterly Performer Award
- Python Internship - Pantech Solutions
- Business Development Internship - Teachnook
- IoT Workshop and Robot Car Design Workshop
- Pratibha Award Recipient
- District Level Athlete (Running)
- NSS Coordinator

EDUCATION

B.Tech Electronics and Communication Engineering   **2019 – 2023**
RGUKT IIIT Ongole   *CGPA 9.34*

Pre University Course (PUC)   **2017 – 2019**
RGUKT IIIT Ongole   *CGPA 9.57*

Secondary School Certificate (SSC)   **2017**
ZPHS Akaveedu   *CGPA 10.0*
